

Part Number: **BD- NEH5108HP**

Aver BD-NEH5108HP H.264 - 8ch hybrid DVR w/ GUI & front panel

AVER's EH5108PLUS is a true hybrid DVR that fuses Linux reliability with a fully featured Graphical User Interface (GUI) designed for ease-of-use, high performance and exceptional image quality - at a great price.

Perfect for deployments in small to medium businesses, the system utilizes existing analog infrastructure while allowing for future IP expansion. Individually adjustable resolution/fps, comprehensive remote administration, robust IP camera support, fully-featured front panel/GUI and the crystal-clear video people expect from AVER make the EH6216 video surveillance that is effective and affordable.

Key Features:

- Embedded Linux
- Graphical User Interface – World's First in a Linux System!
- Adjustable Frame Rates and Resolution on Every Channel (Analog Cameras Only)
- D1 real-time over 4 channels
- 8 Channels, True Hybrid DVR
